To the Best of State Judging Committee:

I have reviewed the Utah Department of Health's "Utah Travel Health & Safety" website and am happy to recommend it for a "Best of State" nomination. I found the site to be very attractive, user-friendly, and unique. The designers and staff of the award winning utah.gov website were pleased to spotlight the Travel site on the Utah.gov "Travel & Tourism" page, and consider it a valuable addition to Utah.gov. It is my understanding that Utah is the only state with a comprehensive travel safety website, and I believe that the "Utah Travel Health & Safety" site has already become a valuable asset to both our residents and those visiting the state.

The information provided by this web site literally can help prevent injuries and loss of life, so I am pleased to offer this letter of support recognizing the Health Department for its remarkable effort.

Best Regards,
